4-Seater 4x4 Utility Vehicle

RANGER 450-4...

The RANGER 450-4 is a bold, compact 4-seater utility terrain vehicle that blends rugged capability with everyday practicality. Whether you're managing a farm, navigating off-road trails, or transporting crew and cargo, this UTV is engineered to deliver reliable performance, comfort, and control -every time you turn the key.

EFFECIENT POWER MEETS INTELLIGENT ENGINEERING

Under the hood, the RANGER450 is powered by a 390.8cc single-cylinder, 4-stroke petrol engine, enhanced with liquid cooling and a balance shaft for smoother operation and reduced vibration. The Electronic Fuel Injection (EFI) system ensures precise fuel delivery, while the Electronic Control Unit (ECU) optimizes ignition for consistent, responsive power.

Specs

General Specs	
Engine Type	Four-Sroke, Single Cylinder, Liquid Cooling
Rated Power	19kW
Horse Power	25,8HP
Driveline Type	Shaft Drive ; 2WD-4WD
Transmission	Automatic
Front Suspension	Independent Mcpherson
Rear Suspension	Independent A-arm Suspension
Front Brakes	Ventilated Hydraulic Disc
Rear Brakes	Ventilated Hydraulic Disc
Dry Weight	570kg
Wheelbase	2 425mm
Ground Clearance	345mm

Gear Selection	L-H-N-R-P
Cooling System	Water Cooled
Fuel Type	Petrol
Fuel Supply	EFI
Displacement	390.8cc
Towing Capacity	450kg
Cargo Bed Capacity	200kg
