1 Seater Golf Cart

SINGLE

Streamlined, lightweight, and efficient, the Eagle Single Seater Golf Cart is built for individuals who need reliable mobility without compromise. With its compact frame and agile design, this cart delivers effortless control, making it ideal for solo transport on estates, golf courses, or leisure spaces.

Key Features & Benefits
Compact & Lightweight Design
Engineered for one rider, the Eagle Single weighs only 70 kg, making it highly maneuverable and easy to store. Its 1.6 m turning radius ensures smooth navigation through narrow paths and tight spaces.

Efficient Electric Performance
Powered by a 24 V system with an 800 W motor, the Eagle Single offers up to 60 km range on a full charge with just 6–8 hours of charging time—perfect for daily use without hassle.

Durability & Safety Built In
With a sturdy frame, electromagnetic brakes, and a gradeability of up to 15%, this cart handles inclines and uneven paths with confidence while ensuring rider safety.

Practical for Everyday Use
Compact dimensions (1460 × 860 × 1000 mm) allow for easy storage in garages or smaller spaces, while the low-maintenance electric setup ensures cost-effective operation.

Who It's For

- Golfers seeking a personal cart for solo play.
- Estate residents wanting quick, eco-friendly transport.
- Resorts & leisure properties offering single mobility solutions for staff or guests.
- Outdoor spaces that require a small, nimble vehicle to move around efficiently.

Why It Stands Out
The Eagle Single combines efficiency, compactness, and performance in one lightweight package. It's the perfect personal transport solution for individuals who value independence, maneuverability, and eco-friendly design.
