550kg Walk-behind Road Roller

T-REX306

The Revaro T-REX306 is a compact, walk-behind double-drum road roller weighing approximately 550 kg. Ideal for narrow spaces like walkways and small repairs, it features hydraulic drive, dual drum vibration, and delivers consistent compaction.

Power comes from a choice of reliable Honda GX270 (9 HP) or optional diesel, and it offers dual starting options (hand or electric). With a climbing ability of 30 %, a travel speed of up to 4 km/h, and a 20 kN exciting force - along with useful features like a 20 L water tank and 21L hydraulic oil tank - this machine balances portability and power for landscapers and urban maintenance crews alike.

Specs

General Specs	
Walk speed:	0–4km/h
Gradeability:	30%
Drive type:	Hydraulic station (hydrostatic)
Vibration control:	Automatic clutch
Static linear load:	53N/mm
Nominal amplitude:	0.5mm
Vibration frequency:	70Hz
Exciting force:	20kN
Water tank:	20L
Hydraulic oil tank:	21L
Engine options:	Honda GX270 (9 HP)
Starting mode:	Hand
Steel wheels:	?425 × 595 mm × 2

Operating weight:	550kg
