1337kg Fieldking Rip on Row Ripper

FKRRRL3

- Ripper loosens and aerates soil while leaving organic matter at the top of the soil.
- Reduces the effects of compaction.
- Ripper cuts weed roots below the surface.
- Optional wide range of roller/ crumbler available, which helps in breaking bigger lumps to smaller clods.
- It can be safely used for heavy duty applications as the shear bolt arrangement protects the implement from getting damaged due to hidden obstacles like underground stones & roots.
- Specially designed tyne is capable of penetrating up to 40cm deep

Specs

General	
Width	2150mm
Length	2660mm
Height	1270mm
Working Depth	40cm
Working Width	1810mm
Number of Tynes	3
Length Without Roller	1120mm
Tyne Spacing	250 - 300mm
Weight With Crumbler	495kg
Tractor Power	60-65HP
